## SUMMARY

UX/Product Designer with 3+ years of experience designing and optimizing digital products across Restaurant Management, Property Management, Online Ordering, Payments, Loyalty, and Mobile Applications. Experienced in transforming complex business and user requirements into intuitive, scalable, and data-driven product experiences across web and mobile platforms.

I specialize in end-to-end product design, from understanding user needs and defining workflows to wireframing, prototyping, UI design, and refining experiences based on business goals and usability. My work has contributed to measurable outcomes, including 20% higher user engagement, 30% improved rewards efficiency, 70% reduced operational effort, and 80% faster dining experiences.

Proficient in Figma, Adobe Creative Suite, UX/UI design, design systems, prototyping, user flows, and interaction design, with a strong focus on creating products that are both user-centric and commercially impactful.

## EXPERIENCE

### Product UX/UI Designer

06/2025 - Present

Roomy Pvt Ltd. ↗

Working as a UX/Product Designer across Roomy's digital product ecosystem, including RMS (Restaurant Management System), PMS (Property Management System), Online Ordering, QR Payments, Loyalty, and web/mobile applications. Responsible for translating complex business and user requirements into intuitive, scalable, and user-centered product experiences, collaborating across multiple products to solve operational and customer-facing challenges.

#### Achievements:

- Designed and optimized the **Points & Gifts Programs** across **Boomingo's** web and mobile loyalty platform, increasing user engagement by 20% and improving the efficiency of the rewards experience by 30%.
- Designed an integrated **QR Payment & Digital Ordering Platform** that unified payments and menu ordering into a single experience, enabling customers to order from their table, split bills, pay for individual items, and pay custom amount via smartphone, resulting in an 80% faster and more seamless dining experience.
- Designed and optimized an end-to-end **Online Ordering System**, reducing restaurant operational effort by 70% and improving order monitoring efficiency by 30%, resulting in faster workflows and better system visibility.
- Designed the **Customer Profile & Details experience for ChowPOS RMS**, creating a centralized Customer 360° view that combines customer information, visit frequency, spending insights, ordering behavior, notes, feedback, and complete order history, with a structured, data-driven interface optimized for quick scanning and efficient restaurant staff decision-making.
- Designed and revamped the **Roomy Mobile Application**, improving the end-to-end room booking experience through intuitive user flows and user-focused interface design, while currently designing the **Loyalty Rewards experience** to drive customer engagement and encourage repeat bookings.
- Designed the **Loyalty Rewards experience for ChowPOS RMS**, creating a customer-centric rewards journey that encourages repeat purchases and reward redemption, with the potential to drive 30–40% growth in repeat orders and restaurant sales through increased customer engagement and retention.

### UI/UX Designer

09/2024 - 06/2025

MaxRemind Inc ↗

Designed and delivered websites, landing pages, digital campaigns, banners, and social media content across multiple client projects, with a key accomplishment being the end-to-end **web design for Union Health Solutions**, a US-based Allergy & Immunotherapy healthcare provider, creating a professional, user-focused digital experience aligned with their brand and service offerings.

UI/UX Designer

AffordIT Ltd. ↗

10/2023 - 07/2024

Rejoined the company as a **remote UI/UX Designer** following my tenure at Lala Group of Companies, contributing to a diverse range of client projects by designing social media creatives, responsive websites, landing pages, and mobile applications, while collaborating remotely to deliver user-focused and visually consistent digital experiences.

UI/UX Designer

Lala Group of Companies ↗

03/2023 - 08/2023

I have Worked in this company for almost 05-Months. During this time period, I worked on their 04 main domains (websites) and some of the design an Umrah Based Website for them.

UI/UX Designer

Afford-IT Ltd. ↗

12/2022 - 06/2023

I have Worked in this company as a UI/UX Designer, during this time period, I worked on several social media posts, web designs and mobile apps for multiple clients.
